Pattern Recognition Laboratory
Chonnam National University
77 Yongbong-ro, Buk-gu, Gwangju 61186
South Korea

RESEARCH INTEREST

- Cross-modal learning for mental health assessment
- Multimodal depression detection using EEG, audio, and text data
- EEG functional connectivity analysis for mental disorders
- AI-driven clinical decision support systems

EDUCATION

PhD (Integrated Master and PhD): March 2022 - Present

Chonnam National University, Gwangju, South Korea, Artificial Intelligence

Dissertation: Coupling Without Correspondence: Shared-Weight Learning for Depression Detection Across Unpaired, Subject-Disjoint Cohorts

Scheduled defense: November 2026 | **Expected graduation:** February 2027

BSc: University of Mkar, Mkar, Benue State, Nigeria, Computer Science August 2019

Thesis: Web-Based Library System: a case study of the University of Mkar

Advisor: Sever Kwaghbee

RESEARCH EXPERIENCE

Graduate Student March 2022 - Present

Chonnam National University, South Korea

Cross-Modal Mental Health Detection using EEG, ECG, Audio, and Textual Modalities

Supervisor: Professor Soo-Hyung Kim

- Preprocessed EEG, ECG, audio, and text data from multiple depression and anxiety datasets (DAIC-WOZ, PRED+CT, MODMA, EATD Corpus, Chinese multimodal, Physionet Spider dataset)
- Designed and implemented deep learning architectures for cross-modal depression detection using attention mechanisms and Siamese networks
- Performed EEG functional connectivity analysis using coherence and phase-locking value
- Conducted statistical validation and ablation studies for model performance evaluation
- Published 3 first-author SCIE papers (Healthcare, IEEE Access, IEEE Sensors Journal), 3 co-authored SCIE papers, and multiple conference papers with over 500 total citations (h-index: 6)

Research and Teaching Assistant March 2022 – Present

Pattern Recognition Laboratory, Chonnam National University

Advisor: Professor Soo-Hyung Kim

- Designed experimental pipelines for multimodal fusion using transformer-based architecture
- Implemented neural network training and optimization procedures
- Support course activities such as serving as a proctor during examinations
- Managed course results, handling and verifying examination grades
- Mentor graduate students on deep learning implementation and experimental design

MENTORING AND LEADERSHIP

Lab Leader February 2023 - Present

Pattern Recognition Laboratory, Chonnam National University | **Mentees:** 8

- Guide and onboard new graduate students in deep learning implementation, experimental design, and research workflows, and advise on their ongoing projects and academic progress
- Manage the lab website and serve as liaison between the department and lab members

Student Mentor March 2023 – December 2023

Chonnam National University | **Mentees:** 5

- Provided academic guidance to junior students on coursework, research direction, and graduate study

HONOURS AND AWARDS

Best Paper Awards

- “AI-Driven EEG Signal Processing: Advancements in Depression Marker Identification” - *14th International Conference on Smart Media & Applications (SMA2025)*.
- "EEG Statistical Analysis of Coherence Patterns in Depression and Machine Learning Classification," - *Annual Conference of Korea Information Processing Society (KIPS2025).*
- “MS-HRVNet: Multi-Scale Residual Learning for ECG-Based Anxiety Detection” – *Annual Symposium of the Korea Information Processing Society (ASK2026)*

Competition Awards

- Gold Prize, 2025 Industry-Academic Cooperation and AI Hackathon Competition (*HANA TALK translation system*)
- Encouragement Award, 2023 AI Industry-Academic Cooperation Project (D*ocument masking system*)

Scholarships and Fellowships

- Brain Korea 21 (BK21) Scholarship 2022–Present
- Industry-Academic Cooperation Foundation Scholarship 2022–Present
- Truth Scholarship (partial tuition) 2024
- Talent Development Center Scholarship 2023
- SRS Scholarship (full semester tuition) 2022

PATENT

- "EEG-based Depression Detection System Utilizing a Frequency-Band-Specific Dual-Connectivity Siamese Network," Korea Patent Application No. 10-2026-0002546, filed Jan. 7, 2026 (**pending**).

SKILLS/TECHNICAL PROFICIENCIES

- **Programming & Frameworks:** Python, PyTorch, TensorFlow
- **Signal Processing:** EEG preprocessing and functional connectivity analysis (coherence, phase-locking value), audio feature extraction, time-frequency analysis
- **Machine Learning:** Transformer architecture, attention mechanisms, Siamese networks, cross-modal learning, multimodal fusion
- **Tools & Libraries:** Scikit-learn, MNE-Python, Librosa, Pandas, NumPy
- **Statistical Analysis:** Cross-validation, significance testing, ablation studies
- **Version Control:** Git, GitHub

PROFESSIONAL SERVICE

Peer-Review Activity:

- Reviewer, BMC Psychiatry (2 manuscripts reviewed)

PROFESSIONAL AFFILIATION

- Associate Member, Korea Information Processing Society 2024 - Present
